BORE & DAP ORDER FORM

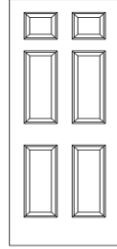

Our bore and dap doors use standard door width & length machined for hinge & lockset to your measurements. Any change in height or width will be at extra charge. We no longer match existing doors and will not be responsible for doors left here.

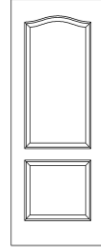

Provincial Woodgrain

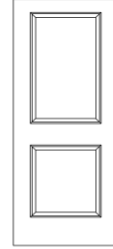

Continental Smooth

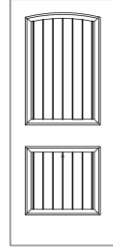

Colonial Woodgrain

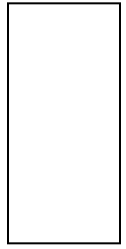

Camden Woodgrain

Cambridge Smooth

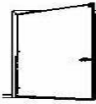

Santa Fe Smooth

Plain Smooth Or Woodgrain

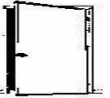

Door Style _____
 Door Height 6/8 8/0
 Hinge Radius 1/4" 5/8"

Specify Swing of Door - Left or Right Hand

Left Hand

When the door opens to you and the hinges are on your left, specify a left hand door.

Right Hand

When the door opens to you and hinges are on your right, specify a right hand door.

Molded doors are beveled 2 sides and under call-out size by 3/16" in width & 1/2" in length. Eg. 2/6x6/8 door is 29-13/16" x 6'-7-1/2".

Doors may be ordered "book" at extra cost, meaning no bevel and call-out size.

Use one page for each door height and style. Use multiple pages if needed. Use other Door Order form for special orders.
